FRIDAY FEBRUARY 5, 1892

TELEGRAMS

(via Galveston.)

London, 4th—Sir Morrell Mackenzie, the famous surgeon who attended the late Emperor Frederick, has died of bronchitis.

Berlin, 4th—While Emperor William was out hunting wild boars, he fell and so severely hurt his arm that the doctors have ordered him complete rest.

Brussels, 4th—The working men have decided to organize an agitation against the Government plan in reference to the Revision of the Constitution, which, they consider, does not go far enough.

Lisbon, 4th—The Cortes decided to-day not to discuss Minister Almeda's project to sell the Portuguese colonies, to help to mend the financial crisis.

Rome, 4th—The Pope gave audience to-day to a hundred representatives of religious corporations.

London, 4th—The British ironclad Blake, the largest in the world, has been put in commission as flagship, to replace the Victoria, wrecked on the coast of Greece. Vice-Admiral John O. Hopkins has been named commander of the North Atlantic squadron.

San Francisco, 4th—Horrible details of the fighting in China between the Imperial troops and the rebels have come to hand. The former had orders to give no quarter to prisoners, and the throats of thousands of rebels were cut. The rebels were entrenched at Kon Tse when they were surrounded by the Government troops, and not one of them was left alive.

Buda-Pesth, 4th—The powder magazine at Pressburg blew up and several persons were killed.

Berlin, 4th—The 9th inst. is fixed for the launching of the new Imperial and Prussian loans, to a total amount of 340 millions of marks. The issue price is 83 marks 60 pfennigs.

Brussels, 4th—The wife of the Spanish Minister has died of influenza.

St. Petersburg, 4th—By order of the Czar, the Minister of Public Works has tendered his resignation.

Paris, 4th—In the course of an interview with a reporter, Dr. Lardy, Swiss Minister here, declared that Switzerland will adopt defensive measures against France's commercial policy. Speaking on the same subject with the Minister of Commerce, M. Lockroy, the latter stated that the new tariff would throw the country back.

Bremen, 4th—Satisfactory advices have been received in regard to the salvage of the Eider, wrecked off the Isle of Wight. Her treasure £100,000, has been saved.

Madrid, 4th—A terrible hurricane has occasioned great losses in the provinces. Ten persons are reported injured.

Dublin, 4th—A launch from H.M.S. Bellisle capsized, and four men were drowned.

Paris, 4th—The *Temps* publishes a telegram from Senegal reporting that the natives of Dahomey have sacked the villages near Popo and captured three thousand slaves. The inhabitants sought refuge in German territory.

London, 4th—Influenza is subsiding in the principal cities of Europe.

Lisbon, 4th — Disturbances were caused to-day by a band of men out of work attacking the bakers' shops. Many arrests were made.

SPECIAL TELEGRAM

To the *Nacion.*

London, 3rd.—The time fixed for the Conversion of the Uruguayan Debt has expired. Four thousand Bondholders deposited for conversion 10½ millions sterling.

TRADE RETURNS FOR 1891.

The official returns were published yesterday and shew as follows:—

	1890.	1891.
	$	$
Imports	142,100,000	67,100,000
Exports	104,500,000	96,700,000

Imports have declined 53 per cent, exports 7 per cent.

The various countries with which Argentina has trade relations shewed in 1891 as follows:—

	Imports from	Exports to
	$	$
Gt. Britain	28,300,000	14,800,000
France	7,900,000	23,700,000
Belgium	6,500,000	16,600,000
Germany	6,200,000	11,500,000
Brazil	1,500,000	9,100,000
U. States	3,500,000	4,200,000
Italy	4,200,000	3,200,000
Uruguay	2,500,000	4,500,000
Spain	1,700,000	1,300,000
Various	4,800,000	7,800,000
Total	67,100,000	96,700,000

Great Britain still holds the foremost place, standing for 27 per cent of the total, France coming second as 19 per cent.

Comparing the imports with those of previous year we find as follows –

	1890.	1891.
Sugar, tons	29,500	12,800
Yerba "	23,500	17,600
Tobacco "	6,900	3,200
Coffee "	3,100	1,900
Salt "	850	510
Tea "	510	260
Coal "	510,000	350,000
Wine, gallons	16,800,000	7,100,000
Dry goods, $	30,100,000	17,100,000
Ironware "	45,700,000	22,400,000
Lumber "	7,400,000	2,400,000
Leather "	1,700,000	430,000
Fancy goods "	2,700,000	840,000

Sugar and wine have declined more than 50 per cent, which is probably the result of increased production of those articles; but we are at a loss to explain the great falling-off in coffee and tobacco, unless as an indication of great poverty, since these are not produced (except a small amount of tobacco) in this country. The diminution of dry goods may also be considered the effect of distress among the bulk of the population.

We regret to see, moreover, a prodigious decline in the most important items for a young country, namely coal, lumber, ironware and leather. There is a fall of 70 per cent in lumber, of 50 per cent in ironware and of 75 per cent in leather; that in ironware being explained by a decline of $18,000,000 under the head of railway materials, but as regards lumber and leather the figures go to indicate a paralysis of some of our best industries. On the whole we cannot agree with Pres. Pellegrini and Minister Lopez that the decline of imports is a matter for public rejoicing; quite the reverse.

Comparing the exports with the preceding year we find as follows:—

	1890	1891
Wool, tons	118,400	138,600
Sheepskins "	27,200	24,200
Wheat "	345,000	320,000
Hay "	19,100	30,000
Maize "	710,000	580,000
Linseed "	30,000	6,500
Potatoes "	900	2,800
Tallow "	17,400	20,700
Meat "	66,300	67,600
Cowhides No.	4,400,000	4,050,000

There is an increase under 5 heads, and a decrease under 5 others, the total result being, as already stated a fall of 7 per cent in the value of exports since 1890. It cannot be said, however, that this decline is anything serious. But it cannot fail to surprise most people that we have made no advance in spite of the enlarged area under crops and the favorable season for sheep-farming. In fact our grain exports have fallen from 1,055,000 tons in 1890 to 900,000 in 1891. As for linseed, respecting which such brilliant expectations were entertained a few years ago, we note a decline of 80 per cent as compared with 1890. There has been a trifling increase of 3,000 tons in frozen mutton and a corresponding diminution in jerked beef.

We observe a flattering increase in two new items of export, viz:—

	1890	1891
Wine gallons	2,200	18,100
Timber ......$	1,400,000	2,100,000

Everything goes to shew that these two items are likely to assume in a few years a prominent rank among Argentine products. The wines of Mendoza, Rioja, Catamarca, Concordia and Lomas de Zamora are really far superior to what is sold in the Army and Navy Stores, London, to the upper middle class and the aristocracy of G. Britain as Medoc, Chambertin, Clos Vougeot, and other French vintages. As soon as the Argentine wines become known in Europe they will readily command a market. It is probable that, in like manner, the Chaco woods will come into demand for articles of furniture, and we are glad to notice a rise of 50 per cent under this item as compared with what was exported in 1890.

The Customs-revenue shewed as follows:—

	$ currency 1890	$ currency 1891
Imports	34,020,000	15,700,000
Exports and Sundries	19,420,000	37,630,000
Total	53,440,000	53,330,000

Reducing the above currency to gold at the averages for the respective years, namely 257 per 100 gold in 1890 and 373 in 1891, we find as follows:—

	$ gold
1890	20,800,000
1891	14,300,000

Here we have a decline of more than 30 per cent, which is partly due to the crisis, partly to the unwise increase of tariff.

It is a fixed principle with all economists that when any industry is suffering it is expedient to lighten taxation in its regard. But in Argentina at the very time that the import trade suffers a contraction of 53 per cent the duties are increased. We cannot wonder if the results be prejudicial to trade and also to the Treasury.

THE MUTINY IN RIO.

(From an eye-witness.)

Rio, Jan. 22nd.

I dare say you have already heard about the mutiny. Nevertheless you may like to get a few lines from an eye-witness. The Santa Cruz is the first fortress you see on entering the bay. It is built on a rock and it is partly cut out of the rock itself. It is surrounded on three sides by water. It stands on your right-hand side, just opposite the Sugar-Loaf. At the back of it, on the highest summit of the mountains, is another fort, the Pico, and just outside, in the middle of the entrance to the bay, there is another one, called the Lage. These two are small forts and are only intended as a sort of advanced guard for the Santa Cruz. The Santa Cruz is used as a military prison. At the time of the mutiny there were 120 prisoners who, I am told, were mostly confined in subterranean or submarine dungeons, inaccessible to fresh air. How these prisoners managed it I can't say, but as a matter of fact they took possession of the fort and held it for two days. They might have bombarded Rio, if they had held possession of the fort a few hours longer. It seems quite natural that men confined in dungeons with little or no chance of escape should accept the overtures of parties outside, rebel, and make a decisive effort to free themselves by creating a revolution. I am inclined to think that is the true explanation of this mutiny. An energetic, desperate man, Sergeant Silvino, took the matter in hand. The garrison was overpowered, the officers locked up, the two minor forts surprised and taken, an ultimatum sent to President Peixoto to hand over the government to Marshal Deodoro—and all this before anyone knew what was up. Now, if Sergeant Silvino's deposition be true that another revolution was to break out at the same time in Rio, the matter was serious enough, but so far no movement has manifested itself outside the three forts. As soon as Government got over its first fright, it got the warships under steam, ordered two or three battalions out, and the mutiny, of course, was quashed in a few hours. Fort Pico was carried at the point of the bayonet and the guns immediately turned on Fort Santa Cruz, which at the same time was being shelled by the warships. After a couple hours of useless resistance the mutineers laid down their arms and surrendered. Rio had a narrow escape, for it appears that Silvino intended to bombard the city! It is even stated that he had the guns pointed towards the city and had ordered the bombardment, when the caps of the guns could not be found. They had been hidden by one of the soldiers. I was watching the whole affair from Praia Flamengo with my telescope. I could see everything quite plainly, as I was only a mile away from the scene of action. There was a fresh breeze at the time and the smoke of the guns was rapidly blown away. Only two shells struck the fort! The mutineers in the Santa Cruz surrendered at midday, and from that hour till sundown every one of the forts and ships fired salute upon salute in honor of the victory, making every one in the city tremble, lest another revolution had broken out. I need hardly tell you that every man who took part in the fight has been promoted, the President going the round of the ships and embracing every officer or sailor he met, thanking them for their bravery. A subscription is being raised to hang a crown of laurels on the flag of each of the battalions which took part in the fight.

As to Rio itself, no excitement was noticeable. All the shops were open. There was nothing to indicate that a battle was being fought in the bay, a mile or two away from the Rua do Ouvidor.

Yours truly,
F. H. F.

LATEST FROM MONTEVIDEO.

Feb. 4th.

The Chamber of Deputies resumed the discussion of the financial bills this afternoon.

Advices from London report that the conversion has proved a success, since over 75% of the bonds have been converted.

The approaching election of the President of the Chamber is the absorbing topic in the Chambers and lobbies of the Government House. An effort will be made to get Senator Stewart re-elected, although he has formidable rivals in the field, Senator Fernando Torres standing a very good chance.

The Earnwell has arrived from Baltimore with coal for the United States squadron.

It appears that no less than 30 British ship-captains have died of yellow-fever in Santos.

By the Aconcagua, which arrived yesterday, Government received letters from Dr. Ellauri.

Telegrams from Brazil state that Viscount Pelotas has been offered the portfolio of War.

PROVINCIAL NEWS.

The latest news from Mendoza is that the Interventor has issued a decree fixing the elections for deputies and electors of Governor for the 14th. At the same time the Interventor suspends with a stroke of the pen the elections which were to take place on Sunday next for deputies to the National Congress. The local Radicals won't very much relish this measure, which will upset a good many plans. In the meantime the electoral committees cannot be named because the Legislature, to which the appointment belongs, cannot sit for want of a quorum. In other words the political muddle in Mendoza is greater than ever, and politicians cannot say how they stand. Several Saenz-Peñistas are at present knocking about the Andine province trying to enlist partisans. So far they have not, we believe, met with much success. The different local parties are trying to arrive at some arrangement, whereby they will all have a hand in the future Government. They all want to get in by hook or by crook, as they are all qualified to govern whether in the high posts of Ministers and bank-managers, or in the humbler capacity of clerks and Government-house porters. We hope they may get it.

Advices from Santa Fé report the opposition to the grain tax increasing. The financial voraciousness of the farmers of the tax is one of the main causes of this general resistance. The tax-farmers have settled like leeches on the wheat-farmers, and the latter have secured three of the leading Rosario lawyers to uphold their cause.

Cordoba, like Mendoza, San Juan, and in fact all the other provinces, is in a high state of political excitement, and the sovereign people is very much amused at the local statesmen running about right and left with that serious 'phiz' which would seem to indicate that the fate of Cordoba, and perhaps the whole civilized world, depended on these genial, good-natured gentlemen. Politicians in Cordoba don't make an excuse of the importance of their mission to drive about in carriages helter-skelter through the streets, as they do here; perhaps there are very few carriages in Cordoba. All this running about and all these assumed airs of awe-inspiring seriousness imply that the Cordobese statesmen have arrived at a satisfactory conclusion as to the man for Galway—or rather Cordoba—at Sunday's elections. Mr. Heraclio Roman the noblest Roman of them all—is the man. We hope he won't rest on his oars when he does get in.

Advices from Tucuman announce that the sugar plantations are in a splendid condition. There will be an extraordinary yield this season.

The *Actualidad* of Paraná speaks in glowing terms of the Jewish colonization scheme in Entre Rios, and welcomes the new settlers with open arms.

People in La Plata are in a great state of excitement on account of the coming elections. There are fears that there will be some heads broken. We hope not, but we should not be surprised if there were a few broken, "para no perder la costumbre."

We have a serious complaint from three well-known residents of Belgrano in reference to a wanton assault which they witnessed on a peaceable Englishman who was grossly attacked and ill-treated the other night on the 'barranca.' We call on the Chief of Police to investigate the matter.

BRAZILIAN FINANCE.

To the Editor of '*The Rio News*'.

Sir, — The deplorable condition to which the finances of this country have been reduced by the evil genius of Drs. Ruy Barbosa, Mayrink and Lucena, may well fill all lovers of Brazil with grief and shame and almost with despair. It will, I suppose, be generally admitted that, with even a moderate amount of intelligence and honesty on the part of its rulers during the last two years, Brazil would at this moment have been prosperous beyond all previous experience. But instead of this, what do we see? Exchange at 12d.! The cause of this is not far to seek, though, strange to say, there are still some Brazilians who seem reluctant to admit it. But what is to be done? If a remedy could be found for the present state of things, such a remedy would clearly be worth millions to the country. But can such a remedy be found? At the risk of being thought presumptuous I venture to say I do not doubt it can be found; my only doubt and fear is whether it will be sought and applied.

In the case of serious and complicated bodily illness the first step is to call in professional assistance, the best that may be had. In special cases such assistance is sometimes sought abroad. Let the same rule be followed with the financial disease which is now threatening the very life of this fair country. Call in the aid of trained and experienced experts. Some such there are even in Brazil. Let them be consulted and let effect be given to their advice. Or better still, call in the assistance of some independent foreign specialist of acknowledged authority. Messrs. Rothshild would have no difficulty in naming several such—men in whom not only Brazil, but foreign nations also would have confidence. As an Englishman I might myself prefer an English adviser; but English interests are so deeply concerned in this case, that it might be as well to seek advice from some other country.

Now there is in France a public man of the very highest authority on financial questions—I refer to Mr. Leon Say. Let the government of Brazil call in the assistance of Mr. Say. Let the real state of affairs be fully set before him, and let it be seen that there is a real intention of following his advice. Only let this be done and I do not doubt that confidence in Brazil would at once revive; the present threatening clouds would disperse; we should see exchange returning to old rates, and prosperity once more smiling on the land.

In this way, then, I believe a remedy may be found for present evils. The position is critical; the times are dangerous; at such times patriotism should assert itself, and the voice of reason and of friendship should be heard.

That our rulers may be wise, and that Heaven may save the country, is the earnest hope and prayer of an

Englishman.

URUGUAYAN NORTHERN RAILWAY.

The directors, with their annual report, submit the audited accounts of the company, made up to the 30th June, 1891. They observe as follows:—"By the statements now rendered it will be seen that the capital expenditure to that date was £774,000. The whole of the railway is now completed, and handed over to the company, having been accepted by the Government of Uruguay, so that the guarantees attache over the whole line, in accordance with the concession. The second and final section was opened for traffic on the 17th April last. The engineer's report is annexed hereto. The board has appointed Mr. W. H. Scott to be the general manager of the railway, and also to be the permanent way engineer and locomotive superintendent. The period since the opening of the railway has been one of exceptional depression in trade in the Republic of Uruguay; this has checked the progress of the country, and greatly impeded the development of the company's business. The board hopes, however, that the working of the railway will show better results as the trade of the country improves. From recent advices, it is satisfactory to note that there appears to be a prospect of the establishment of a saladero in Brazil near the terminus of this company's railway at San Eugenio; this would greatly benefit the traffic. The expenses of working the line are reduced to the lowest point consistent with efficiency. The guarantee of the Government, accrued to the 30th of June last, amounted to £19,197 12s. 3d. The proposals of the Government for dealing with the guarantee have already been laid before the shareholders. The law giving effect to these proposals was passed on the 7th October, and the arrangement under which the proposals are made, was ratified by the Special Commissioner of the Uruguayan Government, the Council of Foreign Bondholders, and by the Committee of Uruguayan Bondholders in London on the 27th November last. Owing to the failure of the Government to pay anything to the company on account of the guarantee, the interest on the debenture stock for the half-year ended 1st July, 1891, has not been met. In accordance with the resolutions passed at the extraordinary general meeting on the 24th September last, the debenture stockholders have been asked to modify their claims for interest in the future. Although the board has reason to believe that this arrangement will be carried out, the formal consent of the debenture stockholders cannot be expected until the arrangements with the Uruguayan Government have taken definite and final shape."

The Uruguay Northern Railway Company, Limited, held its third annual meeting on Dec. 18th under the presidency of Mr. E. M. Underdown, Q.C. as chairman. The directors' report gave rise to some discussion, several shareholders expressing doubt as to whether the guaranteed railways would stand in the same line with the bondholders, or take a position in rear of the latter, in the event of the allocated proceeds of the customs revenue falling short of the amount required for the simultaneous service of both. The Chairman explained that the resolutions already adopted by the shareholders at the extraordinary general meeting, held on the 24th September last, placed it on record that their consent was conditional on the two services being placed on the same basis in respect of payment. Ultimately, the report was adopted, on the understanding that the board would be careful to protect the interests of the company in relation to this matter. The chairman, with regard to the future of the line, expressed confidence that the working results would prove more satisfactory as the trade of the Republic improved.

H. M. S. VICTORIA.

The Victoria, H. B. M. flag-ship in the Mediterranean just reported a total loss, is a sister ship of the Sans Pareil. The first rivet was driven in her keel-plate by Lord Armstrong at Elswick in June 1885. She was launched in April 1887 and had her steam trial in June 1888. There was, however, considerable delay in getting her armament on board and in finally getting her ready for sea.

Both of these ships are known as enlarged and improved "Heroes", and are of the following general dimensions.

Length 240 ft., breadth 70 ft., draught 27 ft. 3 in., displacement 10,470 tons, horse power, indicated, 14,244, (for the Victoria) and speed 17¼ knots.

Their armament consists of two 16-in. 110 ton B. L. R. carried in a single turret forward. One 10-in. 29 ton B. L. R. in a barbette aft. Twelve 6-in. B. L. R. mounted in the superstructure. Twenty-one 6 and 3 pounder quick firing guns and a number of machine guns.

The armor on the sides is from 16 to 18 in. thick, on the turret 18 in., on the bulkheads at the ends of the armored belt 14 in, on the forward end of the superstructure 6 in., and on the screen bulkhead dividing the superstructure into two parts 3in.

A 3 in. deck is also worked over the armour belt and extends from the ends of the armor belt to the bow and stern, below the water line.

The cost of the hull, machinery and guns of the Victoria was £844,922, but this sum was considerably exceeded before the ship was finally ready for sea.

ELECTRIC LIGHTING.

Mr. Editor,

A short time ago some letters appeared in the STANDARD, signed "Three Wires," relative to the progress of electric lighting, and in conversation with one of your staff, having alluded to the flagrant inaccuracies contained in the same, I was requested by him to point some of them out specifically.

The most glaring misstatement was in relation to the electric light of the city of London, where, after referring to the large number of lamps in operation there, it was asserted that all or very nearly all of them were laid down in connection with the Edison system, with three wires.

I have now received the latest data up to December 1891, which I hand you condensed as follows.

There are 21 central electric lighting stations in London. Their actual capacity is 602,000 lamps of 8 candle power. Their ultimate capacity is estimated at 1,664,000 lamps. Of these stations, ten, with an ultimate capacity of 644,000 lamps, are laid out for the system of storage batteries. Seven, with an ultimate capacity of 875,000 lamps, are on the system of alternating current with transformers. Two, representing an ultimate capacity of 100,000 lamps, are on the plain three-wire system. Two, with 45,000 lamps, are on a low pressure system.

It will be seen therefore that the three-wire system is employed for only about one-sixteenth part of the total, and, as far as my information goes, no Edison machinery is employed even for this small proportion, much less for the other more modern systems which make up the bulk of the installations.

I think I was therefore quite correct in classifying the statement of your correspondent, above referred to, as glaringly inaccurate.

I have no desire to continue this subject, unless you deem it of sufficient interest to the general public, in which case I should probably in the next place proceed to deal with further extraordinary inaccuracies respecting patent rights, and some statements made, which, were it not too ridiculous, might almost be construed into fearful threats of legal vengeance launched against the users in this city of electric lamps.

I am,
Yours obediently,
W. R. Cassels.

TRAMWAYS.

Feb. 4th.

Mr Editor,

The tramway rows continue and seem to get more frequent daily, and unless some other method of checking is found the hostility towards the companies will be intensified. Here is something I heard in Rosario which is worth thinking about.

Allow the cost of inspection per month to be $1000 m/n;

Let the tickets be numbered on the same principle as the Caridad Lottery in Montevideo, each ticket being a chance of winning prizes of $400, $100, $50, with smaller prizes, the total of which would equal the cost of Inspection; dismiss the inspectors, and the gain per month would be 20 to 30% on the receipts.

Every man, woman and child would demand and keep their tickets; the guards would issue as many as possible, keeping those for themselves which "high-lifers" disdained to receive.

It would be a popular lottery and cost the tramway companies nil. It would not be illegal, because the chance of winning would be presented to the holder of each ticket.

This is a Rosario idea, where folks are more wide-awake than the STANDARD often gives them credit for.

Yours, &c.,
Scotus.

P.S.—This lottery has been tried in Liverpool with great success—34% clear gain!

THE SALVATION ARMY.

This Society has just published the review and statement of accounts for 1891, which have been audited by chartered accountants. From its pages it appears that during the year 1891 there was an increase of over 1,000 officers alone, they are working in 37 countries and colonies and have meetings in 34 different languages; the number of training garrisons is 87 and the number of local officers and bandsmen is 27,453; the following items are also shewn:—Rescue Homes for Women 40, Scum posts 53, Prison Gate Brigades 15, Food Depots and Shelters for the destitute 28, under the charge of 722 officers. The annual circulation of papers and magazines is 45,000,000. At a meeting held in Australia, Sir Henry Parkes, the Governor of the Colony, said that the Salvation Army had accomplished an incalculable amount of good in the Colonies. In 1891, over £40,000 was raised by the members of the Army in the week of self-denial. In this country the officers receive no salary and their cost of maintenance is almost incredibly small. In France and Switzerland alone the Army have over 600 officers.

The reception of the General in Africa, Australia, and India has, so says the local press, in numbers and enthusiasm, exceeded any previous receptions, not even excepting Royalty.

RAILWAY ITEMS.

Government has issued a decree approving the plans presented by Messrs. Pelleschi and Co. for the proposed works on the Villa-Rufino Railway.

The Board of Public Works and Messrs. Lucas Gonzalez and Co. are at loggerheads in reference to the Cent. Northern Extension, and the Board have asked the Government to decide the following questions: (1) Whether Lucas Gonzalez and Company are obliged to undertake the partial or entire reconstruction of a deficient work, or merely to carry out the repairs pointed out by the Arbitration Committee; (2) whether the contractors are exempted from the obligation to repair at their own cost the damage occasioned while the guarantee was in force and not noticed by the Arbitration Committee.

The following table shews the returns of the railways last year:—

	$
B. Ayres and Rosario	7,314,000

In all about 41 millions on a capital of 346¼ millions.

We learn that a presentation is to be made to Mr. Willian Breedon, Foreman of the carriage and waggon department, B. A. and Rosario Railway, Campana, by his fellow employees on the occasion of his marriage. The present takes the form of an electric silver tea and coffee service with a tray engraved with an inscription commemorating the happy event. The articles are supplied by Messrs. Black and Co., the well-known jewellers and watchmakers, 579 Calle Corrientes, and are now on view at their establishment.

EDITOR'S TABLE.

The thermometer was again unpleasantly high yesterday, and the nice flirting breeze that blew during part of the day was not much relief to perspiring humanity. Our political friends were busy "closing rivets up" for the electoral battle to-morrow; but there were no startling developments of any kind.

We are requested to say that nothing could exceed the courtesy and attention shown to Madame Fitzgerald by the captain and officers of the Eolo. She embarked yesterday at Montevideo, with the other two nuns of the Sacred Heart, aboard the Aconcagua. The ladies who accompanied her to Montevideo, including Mrs. Catherine Galbraith, Mrs. Michael Mulhall, Miss Galbraith and others, returned to our city yesterday morning. Dr. Ayerza was unremitting in his attention to Mme. Fitzgerald and party on the voyage to the Mount, as well as at Montevideo, and we fulfil a pleasing duty in thanking him most cordially for his kindness to our esteemed countrywoman, who takes with her to her new home in Chile the most pleasant recollection of Buenos Ayres and of the numerous courteous friends, among whom Dr Ayerza is entitled to special mention.

We hear with regret that it is more than probable that Admiral Walker's squadron will not come up here, as expected, but will steer straight for home as soon as the Chilian question becomes quite certain to be peacefully arranged.

Not a single bid for the dear, old Tallapoosa at the auction on Wednesday. The auctioneer wasted his sweetness on the desert air and a dozen of idlers for an hour, and then went home, a sadder and a wiser man. Some of our influential American subscribers should give President Harrison a hint to present the old ship to the STANDARD Museum. We'd take the very best care of the venerable relic.

We beg again to remind the friends of the 1st M. E. Church of the Social Meeting to-night at 8 p.m. in order to welcome home the Rev. J. H. Stockton. All are invited—no charge for entrance—or exit.

At the meeting of the B.A. Rowing Club on Thursday night the attendance of Britishers was the largest seen for a long time. Seventy-seven members came up smiling, though the heat was awful, and Ginger Beer with a "dash" was sadly wanted. A Committee of two was named to audit the books of the Club. The following popular gentlemen were elected as the new Committee, the election of the President being received with tremendous cheers that shook the building:—President, Roberto Ramsay, 55 votes.—Vocales Edward Madero, 22 votes; Dr. Virgilio M. Tedin, 50; W C Roberts 51; W Lewis, 52; J P Simpson, 43; H Ford, 45; A N Williams, 56.—Non-salientes—Edward Merian, E Mashwitz, C Alcobendas.—Suplentes F du Vinage, 25; J Earnshaw, 31.

R. P. Sport and Pastime reports a flight of butterflies "near the Station Recreo, on the Ferro Carril Central de Cordoba (Section Central Norte.) It began in the morning and continued all through the day, and there must have been myriads of them. As high as one could see they were flying over head. Their colour is white, just like our small white ones in England. To see them one would think it was snowing. I have noticed this flight now for the last three years, and nearly always in the month of January, just after some heavy rains, with the wind blowing from W. to E."

A London paper of January 6th says:—"A gentleman who has recently returned from France states that a startling new theory of influenza is beginning to gain hold there. It is to the effect that the doctors have been all wrong—that the mysterious disease which is now making its third annual visitation is not true influenza, but a disease of the typhoid form. Very good evidence is offered in support of this theory. If it be correct, it will account for a great deal that has been mysterious and baffling about the alleged influenza."

The good, simple people of Colonia got into their heads the other day when the E. L. S. visitors from this city burst on their astonished gaze that there had been a wedding of rich people in Buenos Ayres on Sunday, and that the newly-married couple, to celebrate the event, had offered this 'paseo' to their friends! Why not? A wedding guests' trip of this kind is far more sensible than the new "fin de siecle" fad in would-be fashionable London life, of taking all who are present at a wedding to a theatre at night, to be stared at by Tom, Dick and Arry. The Colonia folks' idea is a capital one for the next wedding.

The T. W. K. amalgam of air and music on which state school teachers, bandsmen and other deserving classes of the community are made to live in this fine country, owing to the crisis and its train of woes, caused some unpleasantness in Cordoba the other night. The "banda de musica" there is composed of worthy Frenchmen and Italians who have puffed and pounded away through many changing months without being paid a cent. They threatened to strike, and on last Sunday night, when they had finished their task of delighting the ears of the public, the police arrested every man Jack of them, and the efforts of their Consuls to have them released have utterly failed. This is a new way of paying old debts in other countries, but it is as old as the hills in this.

Governor Lista and the Tehuelche Chief Papon left yesterday for Santa Cruz. Papon is fit for the Life Guards, as he is, perhaps, the tallest man in the republic. While here, he frequented the theatres and Carlo's circus, and, strange to say, much preferred operatic music to the doings in the ring. He said he liked the refined music as it moved him to tears.

There is truly awful news from Mendoza. The Locusts have devoured everything—grapes, wheat, beans and potatoes—the running streams are infested, and the loss is calculated at five millions of dollars. Poor Mendoza.

Dr. José Fonrouge will probably be the new Minister of Government at La Plata. He has taken a thorny portfolio in hand. It's all thorn and no rose just now with most of the too numerous Governments that are the bane of the republic.

Lord Salisbury has at last struck the Tory keynote for the coming general election at home. It is, Peasant Proprietors in Ireland, but no Home Rule at any price.

The City Analyst and the Board of Works have their heads together over a question submitted to them by the Lord Mayor, who wants to know if there would be any danger to public health in using ashes of the cremated city "vasura" in repairing the pavement of the streets.

The fashionable clubs are thinking of preparations for Carnival; but in no other quarter is there any sign that the population bestows a thought on the wretched foolery.

The latest port project is for the benefit of the Brighton of the Plate. It is proposed to throw £600,000 into the sea there and make a harbour available for vessels drawing thirty feet.

One of Villalonga's peons was caught in the act of smuggling yesterday: his pockets were filled with rough diamonds and other precious stones. In fact, he is rather a rough diamond himself.

The banditti in South Barracas are again at their bad work. Three milkmen had to stand and deliver either their money or their lives a few days ago: they elected to keep their lives and give up their cash.

At La Plata on Wednesday night, while the band was playing in the Plaza, a cloud of black beetles settled on the city. The curious noise of the billions of wings and the sudden appearance of the insects caused much Ah-ing and Oh-ing and sweet little screaming amongst fair promenaders.

A New York exchange says:—"Charles R. Uncles, a carefully educated young colored man, will be ordained by Cardinal Gibbons this week to the Catholic priesthood. The attendant ceremonies will be celebrated in Boston, and the occasion will, it is declared, gain special moment from the fact that this will be the first ordination in this country of a colored man to orders in the Roman Catholic Church.

Here is another paragraph from a New York paper that will interest a good many families, relatives and friends of a good many people. Just as we were using the scissors on it, one of the most respected clergymen of the English communities entered our office. We showed it to him and he told us that he knew all about this new cure for alcoholism, which has proved such a great success that 75 per cent of Dr. Keeley's patients are permanently cured, and never relapse; those who are unfortunate enough to relapse are debarred from a second attempt at cure, as Dr. K. makes it a rule never to treat a patient a second time. Here is the paragraph from our New York contemporary:—"Doctor Keeley's bichloride of gold elixir for the cure of drunkenness has enriched him to such a degree that he intends to establish dispensaries for it at London, Liverpool and Manchester, in England, and at Glasgow and Edinburgh, in Scotland. Dr. Keeley is described by a St. Louis reporter, who met him recently, as a tall, broad-shouldered man, with full, fresh-colored features, a kindly manner, a large head of gray hair, and a large gray mustache."

Slim Madame La France has lost no time in trying her charms on the juvenile Khedive of Egypt. Fat Mrs Britannia, however, has several toys in her cupboard compared with which the Legion of Honour is a poor bauble.

The cross-Lincoln sheep sent from here to Bordeaux in December have fairly astonished the Frenchmen. Being half English, they are of course good sailors, and Neptune had no terrors for them. In spite of terrific heat in the tropics and stormy weather in the Northern Hemispere, they weighed on arrival an average of 187 kilos each, although their all-round weight when shipped here was only 80 kilos. The Bordeaux butchers opened their mouths and eyes as wide as a draw-well, and declare they never saw such fat sheep before. In fact, the superabundance of fat told against the prices, as the animals that weighed least fetched most.

Any bucolic subscriber who would like a peep at the "Farmer and Stock-breeder's Year Book for 1892" has only to name the day, and it's his, for a reasonable time. We cannot reconcile ourself to a life-long separation from such a valuable work.

Smokeless powder is now being made at the state factory in Rio Cuarto, and a sample will shortly be sent to the W Office for trial.

TO DRINKERS OF
GENUINE SCOTCH WHISKY.
It is a fact that the best Scotch Whisky has now arrived in this country, and the following lines from BON GAULTIER'S BALLADS, viz: "THE MASSACRE OF THE MACPHERSON" (from the Gaelic) will prove that the "GLENLIVET" Whisky has always been to the fore, and its superiority will enable it always to maintain its position.
"Fhairshon had a Son
"Who married Noah's Daughter
"And nearly spoilt ta Flood
"By trinking up the water
"Which he would have done
"I at least believe it
"Had ta mixture peen

Time, Labour and Money saved by its use.

Messrs. Moore & Tudor, Maipu 163, B. Aires.
Chascomus, March 23rd 1891.
Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to ITS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)
JOHN KELLIE.

It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.

Thursday, Feb. 4th.

The gold market opened with a heavy feeling this morning, and the speculation appeared to fall under its own weight; the fall in price, however, did not amount to much, and as the bell rang the premium closed hard. About nineteen thousand ounces changed hands at the first ring; the price opened at $63, fell to 62.90, rose in a bullish rush to 63.10, sank again to 62.50, and closed hard at 62.60, say 284½ % premium. Fifteen hundred sovereigns were sold: the price opened at $19.55 and closed at 19.45, say 286 % premium. In spite of the drop in prices the tone of the market at the close of the ring was very firm at the lower level of price, the situation looking far more bullish than bearish.

There was less excitement about politics this morning, and a belief is gaining ground that the Government have taken all the necessary precautions to prevent any serious disorders at Sunday's election of Senators and Deputies. There is little apprehension as to the upshot of the elections in the city, as Chief of Police Donovan's force is respected by all the contending parties, and should there be any immediate danger, the troops are at hand at easy distance; in the provinces, however, the prospects of the elections are not quite so reassuring, but, as a rule, when disturbances are expected they do not take place, and it is to be hoped that Sunday's proceedings will entail no heavy loss of life.

Patriotic Bonds experienced a sudden spurt this morning, but their course was very erratic. About one hundred thousand were sold; they opened at 56.80, jumped suddenly to 58, and closed at 57.60; they were quoted firm at 58 for the end of the month. Catalinas were firmer also, rising from 6.60 to 6.80.

La Plata Cedulas opened very weak at 26½, but closed firm at 27. Series I closed at 30 and G at 26½; L, M, and N closed at 27 and O at 26.90.

Exchange ruled slightly firmer than yesterday at the same rates. A fair amount of business was done, principally for account of produce business up river. Discounts continue very difficult.

The cheques of the Provincial Bank closed this morning at 44 % discount, those of the National Bank at 27½ % discount. Nothing was done in English Bank cheques. The Bonos of the La Plata Mortgage Bank were done at 11½—say 88½ % discount.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

South American Ounces—

There is no longer any doubt that the Ellauri conversion scheme in London has been crowned with success in spite of the most violent opposition both in London and Montevideo. We shall now have an opportunity of seeing if this financial scheme will work any improvement in the Mount; if the Government avail of the breathing-time given by the operation to retrench and reform all may go well, but it is greatly feared that the Herrera Government will continue its old policy of hand-to-mouth financing, leaving the heavy task of reform to the next Government. Politics are also in a critical position on the left bank of the Plate, and promotions in the army seem to be the order of the day.

It is understood that the Banco de la Nacion Argentina will not begin discounting till the middle of the month. According to good authority, the Bank could have gone on discounting for the last six weeks but for the excessive caution of the Board of Management; this news will be a pleasant surprise to the market, as all thought that the Bank stopped discounts owing to shortage of paper money; furthermore, it was argued that discounts would be resumed this month because the R. M. S. Magdalena is expected next week with the beautiful, brand-new notes from the renowned engravers and printers, Bradbury and Wilkinson, of London. This belief is noted in the market and no end of assurances to the contrary will shake it.

The whole market want to know when the subscription to the capital of the Banco de la Nacion Argentina will be opened to the public. Scores of new hats have been wagered that the subscription will never take place and that the Bank will remain a State concern "pur et simple;" furthermore, it is argued that the occupation of the Liquidating Committee of the National Bank will soon be gone and that the management will rest entirely in Government hands. Then we shall see the Government manipulating for its own account two state banks—the Banco de la Nacion Argentina and the National Bank; under such paternal control the interests of the market are likely to be consulted so far as paper requirements are concerned.

Affairs in the wool markets were very dull this morning and prices were lower than yesterday, no doubt owing to the fall in gold.

The gold market ruled firm at the second ring: over seven thousand ounces were sold at advancing prices for to-morrow; the price opened at 62.50 and closed firm at 62.80, say 286 % premium. Nine hundred sovereigns were sold at 19.45 and 19.47, same premium as on ounces. La Plata Cedulas were much firmer, but Patriotic Bonds were weaker.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

South American Ounces—
Feb. 5th.... 6,800 at 62.50-60-70-60-70-80
Sovereigns—
Feb. 5th.. £900 at 19.45-47.
Patriotic Bonds—
Feb. 5..... 2,000 at 57.50-57.
Catalinas Moles—
Feb. 5.... 100 at 6.80.
Provincial Hypothecary Cedulas—
Feb. 5..L 6,000 at 27-27.10.
Feb. 5..N 2,500 at 27.
Feb. 5..O 10,000 at 27-27.20.
Feb. 5..P 3,000 at 27.80

Advices from Europe state that the wool markets are glutted: the Australian and Cape wools standing at 300,000 bales over last year. The fall in prices is alarming.

We hear of very serious complaints from the South owing to the heavy losses occasioned by camp fires, originated by sparks from the engines of the Great Southern Railway. Only the other day the farmers of Sauce Corto lost 16 stacks of wheat—say a value of $100,000 m/n. The railway company should provide against such contingencies, for the company

may be sued for heavy damages. The question is one of general interest, and the Great Southern Railway Company should bear in mind the losses occasioned and the responsibilities thereby incurred.

Captain Forsyth, the popular commander of the American war-vessel Tallapoosa, will leave these shores ere long. The gallant captain has won during his stay in our midst the golden opinions of all,and the whole American and British community will regret his departure; the good wishes of all will accompany him to the States with the hope that he will soon return to this station.

One hundred shares of the Argentine Gas Company were sold at auction yesday after the first ring at 37.

Auctioneer Constenla sold yesterday the house Calle Bolivar No. 753 for 50,000 m/n.

A chacra of 29½ squares in Liniers has been sold for $64,700.

The cost of the public buildings which Governor Donovan proposes to erect in the Chaco is estimated at $169,894. The Governor proposes to defray this amount by collecting money due by the Resistencia colonists and the proceeds of the sales of land.

One of the most sumptuously furnished houses in B. Aires
1521-AZCUENAGA-1521
Mr. Jose Arguelles, who is leaving for Salta, has authorized the undersigned to sell at public auction all the valuable contents of his superb palace in
1521-AZCUENAGA-1521
On Tuesday 9th and Wednesday 10th of February
at 1 o'clock in the afternoon
This sale will no doubt attract the attention of connoisseurs as the furniture and furnishings are all of the very best quality. All Buenos Aires has visited this palace in the numerous receptions that Mr. Arguelles offered to his friends, and I, therefore, consider it unnecessary to recommend what every body has seen, and know to be of the very best. The palace will be on exhibition 3 days before the sale, day and evening till 10 p.m.
All the details will be published in the special catalogues that are being printed and which will be distributed 2 days before the sale in the same palace and in my offices Piedad 566.
Further details will be seen in this paper on Friday 5th.

The best Tonie known, furnishing sustenance to both brain and body.

Relieves the feeling of lassitude so common in summer, and imparts vitality.

Used in place of lemons or lime juice it will harmonise with such stimulents as are necessary to take.

A teaspoon added to a glass of water, and sweetened to the taste, will be found refreshing and invigorating.

May be obtained of all Chemists or Druggists.

LAIDLAW'S

Tobacco Powder

Laidlaw's Tobacco Powder has many advantages over

Arsenic Powders and Pastes for curing Scab.

Arsenic Powders and Pastes have many objectionable defects

Laidlaw's Tobacco Powder has none.

Arsenic Powders and Pastes are very dangerous and in many cases large lots of Sheep, Cattle and Horses have been killed by them.

Laidlaw's tobacco Powder has no bad effects on either Sheep or men applying it.

Laidlaw's Tobacco Powder costs less than Arsenic Powders and Pastes, is always of one uniform strength and can be relied upon with perfect confidence, and does not injure the wool, but on the contrary improves the quality and increases the quantity.

ARSENIC POWDERS AND PASTES

Dry and burn the wool, and diminish the quality and quantity.

Buenos Aires.

At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

As all animals offered for sale at this Estancia are by stallions, bulls, etc., imported direct from England by the owner, it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.

Nearest Station (under a league from the Estancia) EMPALME PEREIRA F.C. a La Plata from whence animals can be despatched to any part of the Republic.

Animals of the same breeds are obtainable at the Estancia La Favorita. Apply to the Mayodomo, Almacen La Suiza, Carrera Tandil a Necochea, or to Hotel Dhees, Tandil; also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina, F.C.O.S. Rosario.

EXTRACT OF TOBACCO.

According to numerous testimonials which we hold the extract of pure tobacco is the only infalible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.

Directions for use

One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

10th Jan., 1891.

I consider that no estancia which has any stock worth giving medicines to ought to be without these medicines.

The GASEOUS FLUID is the very best colic medicine I have ever seen given to horses, and the RED DRENCH for any illness after foaling or calving or lambing is, I consider splendid.

Yours truly,

Excepcional Remate de 2,000 Esplendidas Vacas Durham, mestizas

con novillada y con 30 toros padres puros, procedentes del renombrado establecimiento "Miraflores," propiedad del Señor Don Exequiel Ramos Mejias. El remate tendra lugar en las inmediaciones de la estacion Julio Arditi (F. C. de la Magdalena.)

El Domingo 21 de Febrero

a la 1 de la tarde

Las vacas que ofrecemos en venta son especialisimas y pocas veces se presentan ocasiones como estas de hacerse de inmejorables planteles.

Estas haciendas proceden de un rodeo de vacas mestizas que formó a eleccion el Sr. Ramos Mejia y cuyos novillos se han vendido siempre a precios muy elevados, habiendose obtenido hasta 100 pesos cada uno.

Hace muchos años que estas vacas se han reproducido con toros puros de inmejorable sangre y anualmente se han hecho depuraciones y limpiezas, dejando solo lo muy bueno y sacando lo inferior para consumo o para venta.

Los 30 toros son puros por cruzamiento, pues tienen 50 años de mestizacion, siempre con inmejorables reproductores de las buenas cabañas de Inglaterra.

La venta será en lotes para planteles al gusto de los interesados.

Un tren expreso saldrá de la Estacion Central a las 10.25 a.m. regresando una vez concluido el remate. Mas datos a nuestra casa Alsina 480 y 482.

The Dictionary of Statistics.

Just published by Messrs. G. Routledge and Sons, Ludgate Hill, London, price £1 11s 6d, the enlarged edition of this work by Michael G. Mulhall F.S S.; it forms a volume of 640 double-column pages, super royal octavo, bound in cloth, with 10 full page plates printed in colors. It is uniform in type and appearance with Chambers's Encyclopædia, and is the largest and most comprehensive work on statistics yet published in any language, embracing 3,350 subjects and all countries. The principal subjects are:—

Age, Agriculture, Alcohol, Anatomy, Animals, Anthropometry, Army, Athletics, Banks, Bankruptcy, Beer, Births, Bridges, Canals, Capital, Cattle, Charities, Church, Coal, Colonies, Commerce, Cotton, Crime, Customs, Dairy, Deaths, Diet, Disease, Divorce, Docks, Drugs, Drunkenness, Education, Electricity, Emigration, Engineering, Factories, Finance, Fire, Fisheries, Flax, Food, Forests, Freight, Fruit, Gas, Gold, Houses, Hunting, Income, Indians, Industries, Infirm, Insane, Insurance, Iron, Irrigation, Jews, Jute, Land, Language, Life, Manufactures, Marriage, Meteorology, Mining, Money, Navy, Occupation, Orders, Paper, Paupers, Population, Post-office, Press, Prices, Railway, Religion, Rivers, Roads, Salt, Shipping, Sickness, Silk, Silver, Slave-trade, Societies, Steam, Sugar, Suicide, Surgery, Tallow, Taxes, Tobacco, Tramways, Transport, Tunnels, Wages, Wars, Water, Wealth, Weights, Wine, Wool, Yarn, Zinc

There is a complete catalogue, of 4,000 items, which enables the student to refer at once to the required item; also a list of 400 books of reference by the most eminent writers on economy and statistics. The publishers have spared no expense in issuing the work, which has involved enormous outlay, being one of the most costly books published for some years in London.
